Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I feel that raising our wireless service is totally unfair. I don't use my wireless phone on a daily

basis only for short calls or emergencies. I beleive that the reason behind this; because, alot of

people are going to wireless phone; because, the phone companies are charging too much for us to

be able to afford a regular home phone. As it is I now pay about \$50.00 to \$60.00 a month for my

regular home phone and I do not make long distance calls. To me that is just too expsensive.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Ann Burns
